Hi all. Happy New Year.

When we last talked I believe that David and the internal L. A. City staff were going to confirm the viability of the game plan he suggested and that we had agreed upon that featured offers to dedicate easements (immediate) and to dedicate fee title (future option to City). Were you all able to complete that step? What is the status of the preparation of acceptable documents / forms so that John Ruhlen and I can begin getting the current owners on the West side signed-up?

Thank you.

(Note: this is a temporary e-mail account that I am using until "issues" that my regular account is experiencing are resolved. I can receive but am not certain if e-mail is being sent on that account.)
